
Structural approach to the English grammar study: syntactic structures analysis

© E.L. Pevnitskaya

Bauman Moscow State Technical University, Moscow, 105005, Russia

The article is closely connected to the problems that face the academic society joined the Bologna Declaration. The purpose of the work is to examine and analyze the most significant linguistic structures in order to investigate the processes of creating meaningful texts. The majority of the interest in the paper focused on syntactic structures analyses. The author considers the structural approach to the English language study to be important for higher education contexts.

Keywords: *syntactic structures, method, linguistic levels, synchronism, diachronic, semantic elements.*
